25X1   6. [   ]John Goldsmith, Senate Armed Services
Committee staff, called to say he was under considerable pressure to make
public General Walters' affidavit. I explained that the U.S. Attorney was
opposed to this release.
          In response to my questions Goldsmith said the press queries following
Senator Symington's public statement this afternoon generally focused on why
some of the high Agency officials involved didn't "blow the whistle" on the
improper requests of the White House staff earlier--why they did not report
these efforts to improperly implicate the Agency to either the grand jury,
the judge, our oversight committees or the President last year rather than
wait until now.

25X1   7. [   ]) In followup to his conversation with
Mr. Houston yesterday, called Bill Hogan, Senate Armed Services Committee,
staff, and outlined to him the paper we had drawn up in response to his request
on the issue of congressional jurisdiction over CIA and role of the Government
Operations Committee vis-a-vis the Armed Services Committee. Hogan
said it was just what he needed and it was agreed that it would be delivered
to him first thing tomorrow morning.

25X1   8. [   ] Doug Adler, in the office of Represen-
tative Edward Koch (D., N.Y.), asked if I could shed light on the classifi-
cation SI-TK for the Congressman. I explained that letter designations
are sometimes used not as a classification but as a designation of a handling
procedure to be followed based on the source of the information involved.

25X1   9. [   ] Called Guy McConnell, Professional Staff
Member, Senate Appropriations Committee, to get the exact language of
25X1A   the Eagleton amendment which was approved by the Appropriations Com-
mittee today 24 to 0. The language was passed on to[   ] EA.

25X1   10. [   ] Delivered several maps of the Middle East
oil producing countries to Mary Cothran, on the staff of the Multinational Corpora-
tions Subcommittee, Senate Foreign Relations Committee, per her request.
